

EDUARDO JOSE ORELLANA GUERRETTA

UNIVERSITY STUDENT

ABOUT ME

As a student of Computer Systems Engineering, I have acquired knowledge in software development and agile work methodologies, which have allowed me to carry out an optimal development of the projects carried out at the university. I am an optimistic and collaborative person, with decision-making skills, easy to work in a team, persistent and constant to obtain the desired results, and focused on knowing and acquiring experience in the fields of computing.

WORK EXPERIENCE

Technical and commercial support advisor.

Onelink - Tetel (Claro) | From April 2021 to September 2021

- I provided technical support to those customers who have failures with their residential services.
- I managed reports for technical visits for those failures that cannot be solved on call.
- I provided information regarding customer service: billing details, new installations and ongoing renovations, among others.

Web Developer

Arteria Estudio | From October 2021 to March 2022

- I designed websites for different brands with Wordpress, in some of them with e-commerce.
- I provided support for improvements to these sites.
- I develop internal applications, using HTML, CSS and Javascript

EDUCATION

Instituto Emiliani

General Baccalaureate | From January 2015 to November 2016

Universidad de El Salvador

IIT systems engineering | From February 2017 to Date
